

Project Demo Planning

Date	06 July 2026
Team ID	XXXXXX
Project Name	Voice-Based Concept Understanding Analyser (VBCUA)
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S. No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Project Overview	Explain project title, problem statement, objectives, and purpose of VBCUA	1 min	Divya Kundakarla
2	Project Setup & Execution	Demonstrate VS Code project structure, environment activation, dependency setup, and Streamlit application execution	2 min	Divya Kundakarla
3	Technology & Architecture Overview	Explain technologies used including Streamlit, Python, OpenAI Whisper, Sentence Transformers, Librosa, and project workflow	1 min	Divya Kundakarla
4	Live Feature Demonstration	Demonstrate Home page, Analysis page, concept selection, audio upload, and AI analysis process	3 min	Divya Kundakarla
5	Results & Report Generation	Explain dashboard scores, transcript, semantic analysis, fluency results, AI feedback, and PDF report generation	2 min	Divya Kundakarla
6	Conclusion & Future Scope	Explain final outcome and future enhancements such as real-time analysis, multilingual support, and cloud deployment	1 min	Divya Kundakarla

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce VBCUA and explain the need for AI-based concept understanding evaluation
2	Solution Overview	Explain project structure, technologies used, AI models, and workflow of the application
3	Live Feature Demonstration	Demonstrate project execution, website pages, AI analysis, dashboard visualization, feedback, and report generation
4	Q&A Session	Discuss implementation details, AI models used, challenges faced, and future improvements
